BOOK SYNOPSIS

Awarded the American-Scandinavian PEN Translation Prize by Michael Hamburger, Susanna Nields translation of *alphabet* introduces Inger Christensen's poetry to US readers for the first time. Born in 1935, Inger Christensen is Denmark's best known poet. Her award-winning *alphabet* is based structurally on Fibonacci's sequence (a mathematical sequence in which each number is the sum of the two previous numbers), in combination with the alphabet. The gorgeous poetry herein reflects a complex philosophical background, yet has a visionary quality, discovering the metaphysical in the simple stuff of everyday life. In *alphabet*, Christensen creates a framework of psalm-like forms that unfold like expanding universes, while crystallizing both the beauty and the potential for destruction that permeate our times.
