If you would like to purchase MasteringChemistry search for ISBN-10:03219669291/ISBN-13: 9780321966926. That package includes ISBN-10: 0133858413/ISBN-13: 9780133858419 and ISBN-10: 0321967461/ISBN-13: 9780321967466. General, Organic, and Biological chemistry (2-semester). Give allied health students the chemistry they need...how and when they need it! Designed to prepare students for health-related careers, General, Organic, and Biological Chemistry: Structures of Life breaks chemical concepts and problem solving into clear, manageable pieces, ensuring students follow along and stay motivated throughout their first, and often only, chemistry course. Karen Timberlakes friendly writing style, student focus, vetted and refined clinical chemistry problems, and engaging health-related applications help todays students make connections between chemistry and their intended careers as they develop the problem-solving skills theyll need beyond the classroom. The Fifth Edition fully integrates the text with MasteringChemistry to provide an interactive and engaging experience. New Construct a Concept Map activities help students connect ideas through video solutions and live demonstrations, while the text and media establish a clinical focus that ties chemistry directly to allied health. Instructors can also assign MasteringChemistrys new Dynamic Study Modules, which enable students to remediate core math and chemistry skills outside of class, freeing professors to focus on GOB Chemistry concepts and problem solving during class. Also available with MasteringChemistry MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever-before, during, and after class.
